Never Dream Again

By The Good Night is a fast-rising indie rock band based between Dallas, TX and Manchester, UK.

Known for their polished live performances, tight musicianship, and emotionally resonant songs their sound blends modern indie rock with subtle Americana and post-rock influences — hook-driven, cinematic, and built for the stage. Formed by a group of musicians with international roots and years of experience in previous touring acts,

By The Good Night brings energy and dynamic range to every show. Their sets span from anthemic highs to introspective lows, making them a strong fit for both festival stages and intimate venues.

Driven by a passion for all things DIY, the band records their own music, writes and directs their own music videos, and keeps everything they can in-house. Having only formed at the end of 2024, the band have already released three singles — each accompanied by a music video — all of which have received FM radio airplay across stations including KKXT and KNTU. They have since taken their sound on the road, playing shows across Texas and Oklahoma while building a committed and growing fanbase.

They were hand-selected from over 1,000 entries to perform on the main stage at Fort Worth Arts Goggle festival, won the Texas Watuaga Fest with 88.1 Indie in May, and have been featured on the front page of KXT. Their debut EP Circular Thoughts arrived January 9, 2026 on digital and CD, with a vinyl edition following in March 2026. By The Good Night are poised to become one of indie rock most exciting new acts.
